Hosted Digital Preservation Service

Standard hosted digital preservation service

The Digital Preservation Service is a contract between Artefactual and the Client. Artefactual provides secure preservation systems and storage to each institution, training, and ongoing support. Services are provisioned and invoiced once yearly. If additional storage is required during the annual subscription term, it will be prorated.

The client receives:

- 1 hosted Archivematica instance/pipeline (Production Release) in one dedicated VM
- Transfer into Archivematica using SFTP
- Configurable ingest, AIP creation and storage
- All hosting infrastructure and AIP storage to be located in a region of your choice (USA, Canada, UK, EU, Australia)
- Technical support as defined in the Warranty and Service Level Agreement
- 1 90-minute online training session
- 9 hours of individualized follow-up training and consulting

$11,000 USD

Preservation Storage Costs

Replicated Archival Information Package (AIP) block storage in 2 geo-remote locations consisting of the primary AIP store and backup storage (2 copies of the AIP in total). Ongoing fixity checking on the primary AIP store included.

1TB - 14 TB	$800 per TB per year	
15 TB - 29 TB	$700 per TB per year	
30 TB+	$600 TB per year	

Integration with AtoM

- 1 hosted AtoM instance (Production Release)
- Integration with Archivematica
- All hosting infrastructure and storage to be located in a region of your choice (USA, Canada, UK, EU, Australia)
- 50GB digital object storage local to AtoM VM
- Technical support as defined in the Warranty and Service Level Agreement
- 1 90-minute online training sessions

$4,400 USD

Additional options available

Many additional options can be added to the standard service. Prices will vary depending on scale and complexity.
- Additional pipelines (for different types of workflows)
- Larger processing space (for ingest of files larger than 150 GB, or more than 10,000 files)
- Creation of AIPs larger than 500 GB in size
- Production of more than 25,000 AIPs
- Software development services
- Data migration services
- Additional digital object storage for AtoM
- Volume discount for AIP storage of 15TB or more
